ABOUT US

THE BEGINNING OF CRAFTERS

The story of crafters begins in Sri Lanka, a beautiful island in the Indian ocean which is rich in culture, religion and heritage, the people of this island is filled with creativity art and hospitality. Yet for decades' country has been suffering with an economic crisis.

Since 2018 the country faced a pitfall in the economy with a chain of events starting from a series of booms targeting churches and hotels. Then the corvid pandemic, lockdowns and the current political instability in the country. All these events effected every aspect of life of the citizens in the country, 1000 of business closed down or shifted its operations to nebougring countries. Low and medium scale earners including daily wagers finds it difficult to survive in this context.

Ricky is a designer and an entrepreneur who is running an advertising company, he too has got the effects of the economic crisis and the pandemic situation. His Printers and machines are shut down for months. Shami-la his wife is the strength behind him looking after the management and she is too worried about the future is his business

*during the pandemic we saw how blessed we are and we saw how badly people suffer, specially during pendemic orphanages lost its donations and children suffered a lot. Differently abled schools had to shut down for months. Each day we got so many people knocking at our doorstep asking for work, they were not beggers but genuine people who is desperate for a job. So we thought how could we help these people go about this situation and make our machines work again, then we came up with this idea.

They came with an idea of making hand crafted Christmas decorations for the Christmas season with the help of poor, orphan and differently abled children. The team visited the homes and had a research on the capabilities and the capacities of the children and came up with a unique business plan.

- Quality of the deco
- How children get benefited

The soecialty of our product is, that are carefully designed to align with these children's capabilities, they have been obseved and taken through an extensive tranning to meet the expected product quality without any supervision.basically we wanted to make a perfect deco out of imperfectwe have open savings accounts for each and every child that help us creating thesedecorations, we are gonna build that fund for him or her to make a better and secured future.

Crafters collection products are not merely a decoration for the Christmas season. It has brought the true meaning of Christmas to every doorstep as they try to make their house beautiful for the season. As we said this is just the beginning of crafters. We are hoping to expand our arms across the nation to bring back a hope to each and every child we meet and we are ready to take their story to the world.

FOR OUR COMMUNITY FROM WHAT WE DO

Common study area for 125 children
in the coastal area

This project came into light as a community service project and a charitable project for the children of the community find a common space for educational activities in the comfort of their own church, as their homes don't provide the space to fulfill their educational needs.

Majority of the families live about the coastal area of the village, and majority of the parents are fishermen, due to these socio-economic factors it doesn't provide a suitable area of study for the children.

The project is of a community consists of around 150 families, whilst approximately 75% have fathers addicted to drugs or the father figure has left the family.

Within the 150 families, there are around 125 children and out of which 75 children are partaking in education, run by the Holy Family nuns in the Holy family convent premises.
